

GREGG ALEXANDER MARAYAN

Software Developer | QA Engineer | Network Technician

Bambang, Taguig City, Philippines | (+63) 956 155 1297 | gregg.marayan@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and QA Engineer with demonstrated expertise in full-stack application development, quality assurance automation, and performance optimization across Agile environments. Proficient in JavaScript, React, Next.js, Node.js, TypeScript, Python, and SQL with proven ability to design scalable, user-centric software solutions while implementing robust testing frameworks and debugging methodologies. Specialized in front-end framework development and cross-functional QA process improvement, delivering measurable enhancements to software efficiency, code quality, and team productivity through collaborative problem-solving and technical excellence. Also brings hands-on experience with Cisco enterprise networking devices and foundational network security training, with interest in Network/Security Operations Center (NOC/SOC) roles.

PROFESSIONAL EXPERIENCE

JobTarget Talleco

Software Developer Intern

Oct 2025 – Mar 2026

Cebu City, Philippines

- Built and maintained Python web scraping scripts to extract and structure job posting data, supporting downstream product workflows
- Contributed to backend and templating features using Twig and JavaScript, with API endpoints documented and tested via Swagger
- Collaborated within an Agile development team using Git and GitLab for version control and code review, and Jira for sprint planning and issue tracking

Staff Outsourcing Solutions

Quality Assurance Analyst

Oct 2022 – Jul 2023

Cebu City, Philippines

- Orchestrated QA coaching and mentorship programs, improving test coverage by implementing standardized testing protocols and quality assurance best practices across the project lifecycle
- Streamlined QA processes and coordinated cross-functional communication between development, testing, and product teams, enhancing overall project efficiency by 25 percent
- Implemented defect tracking and test case management systems, resulting in improved bug identification, prioritization, and resolution cycles
- Led quality assurance initiatives that improved project alignment and reduced regression issues through comprehensive test automation and manual testing strategies

Staff Outsourcing Solutions

Customer Service Representative

Jun 2022 – Oct 2022

Cebu City, Philippines

- Resolved a high volume of customer complaints and technical inquiries with a 90 percent first-contact resolution rate, demonstrating strong problem-solving and communication skills applicable to technical support and QA collaboration
- Managed high-stress customer interactions by effectively addressing concerns, providing accurate technical information, and implementing solutions that enhanced customer satisfaction
- Contributed to customer retention through professional and empathetic service delivery, supporting repeat business and positive brand advocacy

EDUCATION

University of San Carlos

Bachelor of Science in Information Technology

Jan 2022 – Jul 2026

Cebu City, Philippines

Indiana Aerospace University

Bachelor of Science in Avionics Technology (1 semester)

Aug 2021 – Dec 2021

Lapu-Lapu City, Philippines

TECHNICAL SKILLS

Full Stack Development: JavaScript, TypeScript, React, Next.js, Expo, Node.js

Backend & Database: Python, Java, Node.js, Twig, SQL, PostgreSQL

Networking & Security: Cisco Enterprise Devices (Routers, Switches), TCP/IP, Subnetting, VLANs, Routing & Switching Fundamentals, DHCP/DNS, OSI Model, Cisco Packet Tracer, Wireshark (familiar), Firewalls, IDS/IPS Concepts, Security Operations (SecOps), Intrusion Analysis

Quality Assurance & Testing: Test Automation, Manual Testing, Defect Tracking, Test Case Development, QA Processes, Agile QA Methodology

Development Practices & Tools: Agile Development, Git, GitLab, Jira, Swagger, Debugging, Code Optimization, Performance Tuning, Version Control

Soft Skills: Cross-functional Collaboration, Problem-Solving, Communication, Technical Leadership, Process Improvement, Team Mentoring

PROJECTS

Lost & Found Platform

Architected and implemented a full-stack web application enabling USC DCISM students to report found items and recover lost belongings with streamlined user workflows. Designed a responsive front-end with React and Next.js, integrated a PostgreSQL backend for secure data management, and optimized database queries for performance.

Technologies: JavaScript, React, Next.js, Node.js, PostgreSQL, CSS

J&A Online Car Rental Booking System

Developed a full-stack car rental management platform facilitating seamless vehicle booking for USC DCISM students. Implemented a Next.js front end with TypeScript for type safety, a Node.js API layer for business logic, and a PostgreSQL database for rental inventory management, including payment processing and reservation confirmation workflows.

Technologies: JavaScript, TypeScript, React, Next.js, Node.js, PostgreSQL, Vercel

CERTIFICATIONS

CyberOps Associate — Cisco Networking Academy (Oct 2024)

Intrusion analysis, network security monitoring, and security operations.

Introduction to Cybersecurity — Cisco Networking Academy (Aug 2024)

Threat detection, data privacy, and global cyber risk fundamentals.
